## Greyhound Options Inc.

We are a non-profit organization dedicated to finding responsible, loving homes for retired racing Greyhounds. Our aim is to further the understanding of what excellent, affectionate pets these noble creatures make. Since 1995, we have placed more than 1700 Greyhounds in Massachusetts and Northern Connecticut.

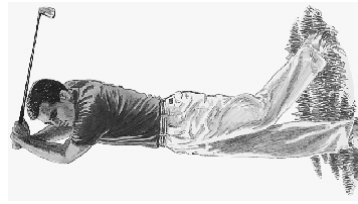

Greyhounds adopted from Greyhound Options Inc. are spayed or neutered, heartworm tested and current on vaccinations. In most cases, the dogs have spent time in a foster home so that we can make the best match possible between pet and adoptive family.

All of the proceeds from this golf tournament will be used to help to support our placement activities specifically the vetting and transportation expenses incurred in the transition from the track to their forever home.

If you have been thinking about acquiring a pet, won't you consider a retired Greyhound? You will be rewarded with many years of love and enjoyment.
